How will you vote on parental choice in education?

- Education is not a one-size-fits all service. Giving parents and students choices is not a zero-sum game. All ships can rise as we make sure every child has access to the education that best meets their needs:
- Parents should have the freedom to choose their child's learning options.
- Education Savings Accounts (ESAs) give parents options to seek schools that best fit their student(s) needs.

Do you support ESA's for all current families, regardless of income?

- ESAs offer parents the opportunity to access schools with curriculums that better fit their needs. ESAs should be available to all families regardless of income or special needs.
